PROFESSIONAL SUMMARY

Passionate and detail-oriented Full Stack Developer (MERN Stack) with hands-on experience in building scalable, high-performance web applications using React.js, Node.js, Express.js, MongoDB, and modern frontend technologies like HTML, CSS, JavaScript, Redux Toolkit, Tailwind CSS, and Bootstrap. Currently pursuing a Bachelor's in Computer Science (BSCS) with a strong foundation in software engineering and full-cycle web development. Proven ability to deliver fully responsive and user-focused websites through freelance and project-based work. Committed to writing clean, maintainable code and transforming client requirements into functional, user-friendly digital solutions..

SKILLS

- **Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Tailwind CSS, Bootstrap**
- **Backend: Node.js, Express.js, MongoDB**
- **Tools & Platforms: Git, GitHub, Vercel, Netlify, Render**
- **Other: REST APIs, JWT, C++, OOP**

PROJECTS-BASED PRACTICAL EXPERIENCE

As a Full Stack / MERN Stack Developer, I have completed multiple real-world projects that reflect industry-level skills in both frontend and backend development.

- Student Fee Management System: Built a secure admin dashboard with student login, fee status tracking, and role-based access using MERN Stack and JWT authentication.
- Full Stack Blog Application: Developed a full-featured blog platform with user registration, post creation, protected routes, and token-based login/logout flows.
- E-commerce Website (Inspired by PakShades.com): Created a responsive online store with dynamic product listing, cart functionality, filtering, and modern UI/UX.
- Personal Developer Portfolio Website: Designed and developed a mobile-friendly portfolio to showcase skills, certifications, projects, and contact information.
- Additional Projects (10+): Includes Weather App, Task Manager, Calculator, Random Password Generator, Admin Dashboard, Quiz App, and more — all built using best practices in React, Node.js, and modern web development.

EDUCATION

Bachelor of Computer Science
University of Agriculture, Peshawar — Expected Graduation: 2026
Strong foundation in software engineering, data structures, and full-stack web development
Focused on building scalable, high-performance web applications

Certifications

Meta Front-End Development Capstone – Coursera
Completed a professional-level project that showcased expertise in React.js, responsive design, and user-centered development. Delivered a polished and accessible UI adhering to modern front-end development best practices.
Advanced Web Development Certificate – NAVTAC
Successfully completed an intensive training program focused on HTML5, CSS, JavaScript, and React.js ,And backend Node js , Express js , MongoDB. Gained hands-on experience building dynamic and responsive web applications using modern development tools and frameworks.

PROFESSIONAL HIGHLIGHTS

- Hands-on experience in Full Stack / MERN Stack development, delivering real-world, scalable web applications.
- Strong problem-solving and critical-thinking skills with a focus on clean, maintainable, and efficient code.
- Proven ability to develop user-centric, performance-optimized solutions using modern JavaScript frameworks and technologies.
- Continuously engaged in learning and adapting to the latest trends in frontend and backend development.
- Adept at transforming business requirements into functional, responsive, and visually appealing digital products.
